Guideline to Authors:

The International Journal of Basic & Applied Physiology (IJBAP) [eISSN: 2349-8390] [pISSN: 2320-172X] is an international, indexed, peer-reviewed, Medical Annual Print as well as Online Journal since 2012, published by Society of Basic & Applied Physiology (SBAP) with headquarter at Department of Physiology, B. J. Medical College, Civil Hospital, Ahmedabad. The journal welcomes original research papers in all areas of Physiology. The types of articles we publish are as follows: Editorials, Original researches/studies, Review articles, Short communications, Letters to the editor, Interesting Articles, Current topics and News.

Authorship: All persons designated as authors should qualify for authorship. Authorship credit should be based only on significant contributions to (a) conception and design, or analysis and interpretation of data; and to (b) drafting the article or revising it critically for important intellectual content; and on (c) final approval of the version to be published. **Any work done on MBBS students will not be accepted.**

Submission of manuscript: Communications intended in regards to publication must be sent to editor on ijbap@yahoo.com. Original research paper must be submitted as per template given in our website www.ijbap.weebly.com

Preparation of the Manuscript (for Research Paper)

Manuscript must be written in clear and concise English. Either British or American spelling is acceptable. It must be sent in Microsoft Word format (.doc or .docx).

General format of the research papers should be as follows in given template:

1. Title page
2. Abstract and key words
3. Introduction
4. Material and Methods
5. Results
6. Discussion
7. Conclusion
8. Acknowledgement (if any)
9. Conflict of Interest (if any)
10. References

In general, the length of full research papers should not exceed six printed pages of the Journal. (Each printed page will approximately contain 800 words).

Article should be submitted along with copy right form with consent of all authors in a prescribed form available on our website and also permission letter for any diagram or photograph if reproduced from other source. Copyright filled and signed by all authors and sent scan copy along with the manuscript to the Editor-in-Chief.

Permissions: Authors wishing to reproduce text or figures that have already been published must seek permission from the copyright holder as soon as possible, and copies of permissions granted should be forwarded to the Journal.

Copyright: Papers that have been published, become the property of the Journal and permission to reproduce if any form (either the whole article or a part of it) must be obtained from the Chief Editor.

Confidentiality: The policy of IJBAP is that all submissions are treated as confidential.

Writing style: In order to make the journal uniform & standard we request that all matters submitted for publication should follow "Uniform requirements for manuscripts submitted to biomedical journals" as published by International Committee of Medical Journal Editors (ICMJE) www.icmje.org

Editorial

On The Occasion of Fifth Issue

Dear Members,

Wishing you all a very happy starting of this winter season.

I am very happy to put this Fifth issue of Our Society's Journal in your hand in this year. I feel proud that for last Five year IJBAP is published non-stop. Every year our journal is creating milestone for its timely publication.

As you all know that with the ending of one season, other starts. Global Warming has led to the changes in the weather very fast. We will have to deal with it as an impact of the Globalization. Same way Physiology is also changing but in better way of course!! Advancement in technology drives scientific discovery. The future of Physiological research and discovery lies with these next-generation technologies. Advances in computational biology, medical imaging, tissue engineering, and many other areas should open exciting new areas of discovery. Accordingly, the education and training of physiologists and other health professionals have changed significantly and continue to change.

As a Journal Publisher, We strongly support research that will benefit physiology and discourages the publication of articles that merely represent pre-established and repetitive facts. The Journal allows publication of articles that may have been reported in literature but from a different region.

Working with our knowledgeable and international Editorial Advisory Board members, I can assure you of a rapid, robust and fair peer-review process.

Thank you in advance for your valuable contributions to the International Journal of Basic & Applied Physiology.

Jay SBAP,

Chief Editor
Raghvendra Dixit M.D (Physiology),
Deputy Director,
Medical Education and Research,
Gujarat State

Message...

Dear friends,

Jay Bharat

When we started IJBAP, it was a huge challenge to make it a successful and prestigious journal which does not charge any amount from authors, researchers and students.

Now I can say that we have achieved the target in creating confidence amongst authors and physiologists.

The journal has also been Indexed in MCI recognized Indexing Agencies.

I request you all to co operate in building a prestigious, world class Journal with credible scientific material.

We have put confidence in heads of the Department of Physiology. So the onus of maintaining genuineness of the original research article is lying on H O D s of physiology through out India and Abroad.

Great institutions are developed after years of hard work, honesty and building long term credibility.

Our constant aim is to make this institution word class so we don't like to compromise with principles.

Thanking you for your co-operation.

Dr. J. M. Jadeja
President,
Society of Basic and Applied Physiology

About Society of Basic & Applied Physiology

Regd. No: F/17129/Ahmedabad. Dt. 04/09/2013.

Society of Basic & Applied Physiology is a non-profit private organization having its office located at Department of Physiology, B J Medical College, Ahmedabad, Gujarat, India. This is the first ever Association representing Only Medical Physiologists in India.

Society of Basic & Applied Physiology is dedicated to publish research in all field of Physiology. Their main mission is to enable those who seek the relevant research information on Physiology and make them available in different formats. A long term objective is to provide high quality, accurate and required information to enhance research and innovative concepts in scholarly publishing. Society strictly follows Honesty, Sincerity and ethics.

Activities of Society

Society regularly organizes International Conference every year since 2012 to promote research work of young Physiologists.

Society publishes International Journal of Basic & Applied Physiology to provide platform for Indian as well as International physiologists to publish their research work for physiology fraternity in India and abroad and to provide information about the research work going on internationally.
